EXTREME CLEAN

JET SKI WASH

\$19.95

- Specifically designed for use on Jet Skis
- Inhibits rust and corrosion and provides residual protection in vulnerable areas such as the pump, storage and dashboard
- Removes Salt Residue and abrasive grime particles
- Leaves the gel coat and plastic surfaces crystal clean
- Effortless application greatly reduces the time and effort required to maintain your Jet Skis presentation and durability
- Will not strip quality polishes and will rinse to a clean, streak free finish
- Does not contain harsh alkalis. It is mild and safe to the user, the Jet Ski and the environment

Directions for use

1. Hose down the Jet Ski
2. Dilute 2 Capfuls into 2 litres of water
3. Apply with a sponge or mist over the Ski
4. Rinse Jet Ski with fresh water
5. For best results dry with a microfiber cloth.

Hints and Tips

Always wash Jet Ski in a shaded area.

Rinse sponge well and often to remove dirt and avoid scratching.

Wash and rinse well into the pump area, under the seat, and within the front storage areas.

Where time permits, mist over the Jet Ski and allow Extreme Clean to dry. Excellent results can be achieved by spraying at night and rinsing in the morning.

Special tips for travelling and on holidays when a wash down isn't possible.

Extreme Clean has been designed to not only clean your Ski but with a high concentration of corrosion inhibitors as a primary advantage.

If you're travelling and can't wash down your Ski or Car please do the following for peace of mind.

Mix 2 capfuls of Extreme Clean Jet Ski Wash into a spray bottle and fill with water.

Lightly mist all over the Car, Ski, Trailer, wheels, pump area, dashboard etc. Lift the seats and do the areas that corrode the most around the chassis and metal parts.

Make certain this is done out of the Sun preferably after it has set. Next time you launch your Ski, it will emerge bright, shiny and corrosion free due to the protecting elements of Extreme Clean Jet Skis.

Its rapidly biodegradable to will not harm the environment.

DESIGNED TO WASH AND PROTECT YOUR JET SKI FROM CORROSION

EXTREME GLEAM JET SKI POLISH

Premium blend of polymers, resins and ultra high melting point waxes

- Protects the Jet Ski from the harsh effects of salt and sun exposure
- Conditions the colour and creates a sparkling showroom finish
- Simple spray bottle for no fuss application
- Jet Ski will wash off easily after treatment
- Australian Made
- Biodegradable
- Specifically designed for Jet Skis

Protect the brand new showroom shine of your Jet Ski with Extreme Gleam – Professional Grade Jet Ski Polish.

Directions for use

1. Wash Jet Ski with Extreme Clean Wash and then dry off with a microfibre cloth
2. Shake bottle for 45 seconds to ensure uniform consistency before applying
3. Spray Extreme Gleam Jet Ski Polish onto the painted surfaces
4. Use a microfiber cloth to apply in a circular motion to surface. Ensure an even coverage is achieved.
5. Polish to a deep shine with a clean microfiber cloth. Best results are achieved by dividing the Jet Ski into manageable sections.

Hints and Tips

Always wash and treat Jet Ski in a shaded area.

Apply every few months to keep the paint looking like new Use on chrome painted surfaces for brilliant shine.

Avoid treating the whole Jet Ski in one single application. Do one section at a time.

If you accidentally apply the polish to the plastic surfaces remove with olive oil immediately.

DESIGNED TO MAKE YOUR JET SKI SHINE & PROTECT IT FROM THE ELEMENTS

EXTREME FRESH JET SKI WETSUIT WASH

Extreme Fresh – Premium Grade Jet Ski Wetsuit Wash

- Designed for cleaning, conditioning and maintaining Jet Ski riding gear
- Removes salt, chlorine, bacteria and unwanted odours
- Place all Wetsuits, Tour Coats, Helmet liners, Lifejackets, Gloves and Boots and gear into a large tub and fill with water
- Add Extreme Fresh Wetsuit Wash to the tub at approximately 300:1 and mix well
- Hang items in the shade and lightly hose them off
- Alternatively mix a solution in a spray bottle. Hang items in the shade. Lightly spray. Allow JetSki.XXX Extreme Fresh to go to work for a few minutes then hose off.

If wetsuits are hard to get on: try a light sprinkle of JetSki.XXX onto the tight areas on the inside to allow the suit to slip into place easily. The Aloe Vera in the product will not harm skin but if irritation does develop discontinue use in this fashion.

Premium Grade Wetsuit Wash – Purpose designed for Wetsuits and gear used for Jet Skiing

DESIGNED TO KEEP ALL YOUR GEAR FRESH, BRIGHT & NEW

EXTREME TOW

JET SKI TOW CAR WASH

Extreme Tow – Jet Ski Tow Vehicle Wash and Wax

- As the old saying goes, “protect the tow vehicle first”. Without a vehicle to tow, there isn’t going to be much riding so we set about creating a product to keep the corrosion at bay and maximise the shine while we’re at it.
- Extreme Tow has been designed to remove, neutralise and add a layer of anti corrosion onto every surface of your tow vehicle and Trailer.
- There is a very high concentration of polymers to make the paintwork bead like new.
- It’s impossible to launch without exposing the underside of your Car to the salt and the Trailer always has to go deep into the water so make sure you remove the it all with Extreme Tow.
- Always wash Tow Car in a shaded area.
- Rinse sponge well and often to remove dirt and avoid scratching.
- Rinse the Car well, including underneath.
- Where time permits, leave it on the Car for around 15 minutes and allow Extreme Tow to dry (SHADE ONLY)
This will allow the polymer to adhere to the paintwork smoothing it out and making it bead like new.
- Once a month use a product distributor (or pour Extreme Tow into an empty hose) then run a sprinkler under the Car and pull from front to back.
- Enjoy the peace of mind of a purpose designed product for Tow Vehicles in Marine use.

DESIGNED TO KEEP YOUR CAR PROTECTED AND SALT FREE

EXTREME FLUSH

JET SKI ENGINE FLUSH

Extreme Flush – Jet Ski Engine, Intercooler and Exhaust Flush

- Use after every ride, even after fresh water use.
- PH neutralising solution removes all traces of corrosive deposits and algae or weed that blocks your vital cooling lines.
- Use to flush out the cooling system, the intercooler, engine bay and exhaust systems.
- Take care not to induct liquid into the intake or breathers. Ask your Service Agent where they are if unsure.
- Salt destroying ph neutralising engine flush 1000 ml
- Premium Grade – Designed specifically for Jet Skis

Simply squeeze 50ml of product into an empty hose line. Attach to the flushing adaptor and flush for 1.5 - 2 minutes only. Repeat with intercooler if on separate line eg: on Race Skis.

Unlike other products does not need to be distributed slowly to leave a residue.

DESIGNED TO FLUSH YOUR JET SKI FREE FROM SALT

EXTREME JET SKI PRODUCTS

\$29.95

EXTREME PROOF JET SKI OIL ADDITIVE

JetSki.XXX Extreme Proof – Viscosity Index Booster & Oil Water Proofer has a high viscosity index which improves the lubrication properties of conventional oils, especially when contaminated by water.

- It reduces wear and power loss due to friction, heat generation and gum varnish build up.
- It prevents the loss of oil via air breathers from frothing if water is ingested and preserves the lubrication and protection of the oil at 95% effectiveness with up to 50% water in oil.
- JetSki.XXX Extreme Proof™ is suitable for use in all 4 Stroke Jet Skis running mineral or synthetic oils.
- Dilution with your usual oil is in the range of 10% – 50% depending on the severity of the operating conditions, temperatures reached, the age of the engine and potential risk of water ingress.
- Pre-blend thoroughly before adding to the engine. The product is colloidal so once blended it will not drop out of the oil.
- If oil is already in the engine induct extreme proof slowly into a warm idling engine being cooled by a hose, test tank or in the water on a Trailer. Induct at 200ml per minute. Ensure adequate oil level before starting and don't over fill.
- **Note:** In cases of water ingestion always ensure all water and oil is drained from the engine including the upper cylinder area before replacing with fresh Oil and Extreme Proof.

DESIGNED TO PREVENT WEAR ON YOUR ENGINE

\$49.95

EXTREME GRIP PASSENGER GRIPS

- No need for a special Life Jacket.
- Just put the passenger grips around the outside of your Life Jacket and add instant comfort for your passengers.
- Passengers can ride standing up in tandem with you in rough water.
- They make riding two up an enjoyable experience!
- One Size fits all.
- No passenger should ever be without them!

DESIGNED TO MAKE PASSENGERS SAFE AND COMFORTABLE
